Compromise Likely On Adriatic Problem

London, Nov. 20.—Considerable improvement in the Adriatic situation is reported here as a result of conversations in Paris between British, French, Italian and Jugo-Slav representatives. The latest indications are there is a possibility of a compromise settlement satisfactory to all parties, including Captain Gabriels D'Annunzio.

With a vite to remedy this state of affairs American financial magnates have organized a National Committee on European Finance to study definite plans for supplying the necessary long time credit for Europe's purchases in the United

States.

Organization of this committee is believed to be a step toward the solution of the most important peacetime financial problems which have ever confronted a nation. The task before the committee is to devise ways before the committee is to devise ways and means for speeding up a return to normal in the trade relationships between the United States and Europe. The chairman of the new body is Harry A. Wheeler, New present the Chairman of the sexecutive committee is a second of the committee of the National Bank of Commerce in New York. The membership has been drawn from among mes of experience in all the various lines of business activity and important affairs of the nation and is representative of all sections of the country, among them had not being: Harry Davison, House L. Express Company and the Grand Trunk System, in conjunction with the Handley-Page Air Line, are now despatching express packages from London to Paris, Brussels and Amsterdam by aeroplane, with return service from those points to London. This illustration shows shipments from Paris, deticine for Canada, being unloaded from one of the big machines at B rooklands. These shipments include high class model inflinery purchased by Canadian merchants in Paris and shipped from that fashing centre at the latest possible moment to catch the fast steamships, to that such models will be able to reach cities of the Dominion as quickly as similar models reach New York. Passenger service by aeroplane is also in operation between the same points.
